Volume 24: Building Filters for 70 1/2

One way of building a filter that will find all contacts turning 70½ years old in the current year, is to build a filter that will find all contacts with a seventieth birthday during the latter half of the previous year or the first half of the current year.

This example will demonstrate how to build a filter that will look seventy years in the past to find all contacts with an actual date of birth in the latter half of 1933 or the first half of 1934. All contacts meeting this criterion will turn $70\frac{1}{2}$ years old during the year 2004.

To build a filter that will search for all contacts turning 701/2 during the year of 2004 -

- Select Marketing in the main menu and then select Filters.
- In the Search Filters screen, click Add.
- Select the Contact-Individual category. Click OK.

Figure 1: The Filter Category screen (Contact-Individual category selected).

- In the Filter Setup screen, click the Add button in the Filter Items section.
- In the **Filter Criteria** screen, select the **Personal table** in the **Tables Available** section and the **DOB** (Date of Birth) column in the **Columns Available** section.
- Select the **Advanced** operator in the **Operator** field drop down.

ables Available ontact ersonal	Columns Available DOB Age	Table Column	Personal DOB
Address Phone Contact Extension	#Child Job Title Occupation	Operator	Before
Contact Benefit Advisor Basic Info Contact Referral	Salary Tax Gender Marital Tobacco Total Income Net Worth Nationality Primary Language PIC PICQ Driver's License # Expiration Date State	Available) Columns	After Equal to Not equal to Is Null Popular Date Ranges Advanced able (from Tables) and a column (from Available). Specify the and value for the column.

Figure 2: The Filter Criteria window (DOB column selected and Advanced Operator highlighted.)

- In the Advanced Date Filter screen, select the Date Range Operations condition in the Select Conditions to Apply section.
- Click the **Down Arrow** to move the condition into the **Description** section.
- Click the condition hyperlink (within date range) to create the filter description.
- Click the **Calendar** button to the right of the **From** field and use the **Calendar** tool to set **July 1, 1933** as the beginning of the range.
- Click the **Calendar** button to the right of the **To** field and use the **Calendar** tool to set **June 30, 1934** as the end of the range.

This range will find all contacts turning 70 years old in the latter half of 2003 or the first half of 2004, effectively generating a list of contacts turning 70½ years old during the year 2004.
